

## Accessories for ECO-Line and G 1000 Series

### G 1000 cover: Rubber Protection Cover

Elastic protection cover

Effective shock protection

Practical: 2 integrated neodymium magnets

Integrated probe holders for Ø 3 and 1.5 mm probes

ECO 120 with temperature probe 3 mm

Field application with ECO 210 manometer

Very robust rubber protective cover for tough field use!

Adheres excellently to most metallic surfaces due to 2 strong neodymium magnets - without leaving scratches on painted surfaces.

When used with thermometers, the temperature probe can be securely fixed on the back - for easier transport

**art no. 483958**

## Accessories for ECO-Line and G 1000 Series

### 1000 Base: Table Base and Wall Suspension

Practical table stand

With anti-slip feet

Can also be screwed to walls via integrated holes - as wall suspension

with ECO 121 as table stand

Application with ECO 420-02-AQ

7

Table and wall holder made of PLA plastic - for use, for example, as a charging tray for G 1910 air quality monitor.

Enables a safe and non-slip stand of the device, for example in the laboratory - or optionally a safe attachment as a wall mount on machines or similar.
